**Purpose of Contact:** 308B & D RLC Scoping Meeting

---

## Discussion

DOE, CDPHE, and K-H met to discuss the Reconnaissance Level Characterization Plans (RLCP) for the 308 B & D pump houses that pumped Interceptor Trench System (ITS) water to the 308 Modular Storage Tanks (MSTs). The 308 B Historical Site Assessment (HSA) was reviewed. The 308 D HSA was provided electronically later in the day.

The 308 B & D pump houses were originally anticipated to be Type 2 facilities because they handled ITS water. Recent sampling of the ITS water and the MST sludge and liners shows that the ITS is clean. Therefore, the RLCP includes Pre-Demolition Survey (PDS) requirements.
